

RAYTOOLS AK390HT SERIES

Parabolic Hardening Head

Power Rate 20000W

scan it for more details

High Power Rating

Adapted direct water-cooled copper mirrors, with a long service cycle, maximum power handling go up to 20KW

Efficient Water Cooling

Double channel water-cooled structure design, the mirror holder and the laser head body are equipped with water-cooled micro structure

The Spot Size Can be Adjusted

With a special integrated mirror can produce a variety of different sizes of rectangular spots to achieve the surface hardening

Specifications

Fiber Interface	QBH , LLK-D , QD
Clear Aperture	49.5 mm
Collimator Focal Length	75mm , 100mm , 150mm , 200mm
Focusing Focal Length	300mm
Cover Glass	φ50 mm * 2 mm
Assist gas pressure	6bar
Weight	~4 kg

KIS Size	10*2
	15*2
	20*2
	20*4
